### Barnard Hospital Accepts Grant

Barnard Free Skin and Cancer Hospital has accepted a \$290,000 grant from the U. S. Public Health Service which will provide for construction of two additional floors to the 5-story building, Mr. George Hecker, president of the Barnard board of directors, has announced.

The grant will provide approximately half the funds for the addition. Barnard Hospital will supply \$190,000 in matching funds. A large portion of their funds was gifts of the Women's Ad Club from the proceeds of their annual Grid-iron Show for a number of years. A portion of the matching funds will be from Medical School funds given for support of cancer research.

The Barnard grant activates a prior award of \$214,000 made to WU for remodeling the hospital's fifth floor. The remodeled floor will be a 10-bed addition to the Clinical Research Center now located on the fourth floor. This award was made in December, but funds were withheld pending approval of the Hospital's construction application.

The new sixth floor will provide laboratories for the division of radiation biophysics and the tumor registry now located on the fifth floor and additional research labs. The seventh floor will house large and small animals.

### Walsh Portrait Is Presented

A portrait of Dr. Theodore E. Walsh, head of the otolaryngology department, was presented to the School of Medicine during the ENT Alumni program recently. The portrait is a gift of the ENT Alumni in recognition of Dr. Walsh's many years of service to WUMS.

In accepting the portrait in behalf of the Medical School, Dr. Carl Moore, Vice Chancellor, said, "The Medical School as well as the entire University share the high opinion and regard that you, the alumni, have for Dr. Walsh. It has indeed been a great privilege for all of us to have him as our colleague and friend."

Dr. Walsh joined the University in 1940 as professor and head of the department of otolaryngology. He is the immediate past president of the American Otological Society and past president of the Triological Society. He is chairman of the Communicative Sciences Study section of the NIH. Dr. Walsh is a member of the Royal Society of Medicine. Dr. Joseph Ogura, professor of otolaryngology, presented the portrait to the Medical School.

## Harry Alexander Visiting Professorship Established

The first Harry Alexander Visiting Professor of Medicine was in residence April 12-15. Dr. Jan G. Waldenstrom, professor and head of the department of medicine at the University of Lund at Malmo, Sweden, participated in the teaching program of the department of medicine.

Dr. Waldenstrom, an authority on blood pigments and blood proteins, received his M.D. degree at the University of Uppsala, Sweden. He has been an invited lecturer at several national and international congresses, including the Harvey Lecture in London and in New York and the Ciba Lecture in London in 1964. He is an honorary member of the Association of American Physicians and a member of the Swedish Academy of Sciences. He was president of the last International Congress of Hematology in Stockholm in September 1964.

The professorship honors the well-known St. Louis allergist. Dr. Alexander has been a member of the WUMS faculty since 1924, and he now holds the title of Professor of Clinical Medicine. He was the first editor of the "Journal of Allergy", a position which he held for twenty years. "Dr. Alexander has done a tremendous amount of good for the Medical School," said Dr. Carl Moore, chairman of the department of medicine. "He is one of our most loyal and distinguished faculty members."

The fund for the visiting professorship is a gift of the former house officers and friends of Dr. Alexander.

## Dr. Sam Guze Named Assistant to the Dean

Dr. Samuel B. Guze has been named assistant to the dean effective immediately. Dr. Guze is professor of psychiatry and associate professor of medicine.

As Assistant to the dean, Dr. Guze will serve on the Executive Faculty and serve as an advisor to the dean on Medical School policies.

Dr. Guze graduated from WUMS in 1945 and has been a member of the faculty since 1951. He served as chairman of the executive council of the WU faculty senate in 1963-64 and is currently counsellor of the WU chapter of Alpha Omega Alpha.

## Nine Are Elected to AOA

Seven senior and two junior students have been elected to Alpha Omega Alpha. They were initiated at the society's annual dinner on April 28 at the Clayton Club. Dr. Robert Palmer, Dean of the Faculty of Arts and Sciences spoke at the banquet.

New junior members of the honor society are Stephen Corrie, Des Moines, and William G. Wood, Muskogee, Okla.

Senior members are Joseph Avruch, Brooklyn; William Bridson, Wichita; John Brunner, North Kansas City; Neil Crane, St. Louis; Edward Massin, Port Arthur, Texas; Leland Melson, Lincoln, Neb., and Marshall Permutt, Birmingham.

Senior members elected last year are Peter Schwartz and Richard Myers.
